

FURKAN AHI

UNDERGRADUATE COMPUTER ENGINEERING STUDENT

My aim is to leverage my computer engineering knowledge, programming expertise, and problem-solving skills to design and build innovative software systems that create real-world impact. With a strong interest in artificial intelligence, data science, and scalable application development, I continuously explore emerging technologies to broaden my skill set. As a collaborative and proactive learner, I am committed to continuous growth and to delivering creative, efficient, and high-quality solutions in every project I undertake.

ACADEMIC HISTORY

Bogazici University

Bachelor of Computer Engineering

- Ranked 507th nationwide in the quantitative track among 3.5 million candidates in the YKS exam, I earned admission to Boğaziçi University Computer Engineering.
- Completed the English Preparatory Program and achieved a TOEFL iBT score of 94.

Kabatas Erkek High School

- By ranking in the top 0.1% nationwide in the LGS exam, I earned admission to Kabataş Erkek High School, one of the top 3 schools in the country.

WORK EXPERIENCE

QNB Finansbank – Technology & Digital Banking Intern | Istanbul, Turkey | July 2024 – August 2024

- Collaborated with branch and head-office IT teams to observe and support core banking systems, digital channels, and data-driven customer solutions.
- Strengthened skills in problem-solving, data analysis, and secure software practices, linking my computer engineering background to real-world applications in financial technology and digital transformation.

Codeaway – Software Development Intern | Istanbul, Turkey | June 2025 – August 2025

- Gained hands-on experience in full-stack software development, contributing to the design and implementation of web applications.
- Worked with modern programming languages and frameworks to build scalable solutions, focusing on clean code and maintainability.

VOLUNTARY EXPERIENCE AND LEADERSHIP

McKinsey Forward Program – Participant | May 2024-Present

- Completed a selective global leadership and career-development program designed to build problem-solving, communication, and critical-thinking skills.
- Collaborated on case studies and interactive workshops to develop practical business and analytical capabilities.

ESTIEM (European Students of Industrial Engineering and Management) – Public Relations Responsible | January 2024-Present

- European Students of Industrial Engineering and Management, who combine technological understanding with management skills by utilizing strategic planning and innovative approaches,
- Managed and optimized the organization's external communications by planning data-driven social media campaigns and coordinating event promotion. Developed and maintained partner and participant networks, using digital tools and analytics to track engagement and support the success of multiple university events.

CERTIFICATION

Introduction to Artificial Intelligence(AI) | 2024
IBM

IBM AI Engineering Professional Certificate | 2025

Google IT Automation with Python Professional
Certificate
| 2025

LANGUAGES

Turkish (Native)
English (C1)
German(A2)

SKILLS

- Programming Languages:** Python, Java, SQL
- Web & App Development:** HTML/CSS, JavaScript, React, FastAPI
- Tools & Frameworks:** Git/GitHub, Jupyter, VS Code
- Concepts & Technologies:** Data Structures & Algorithms, Object-Oriented Programming, Database Systems, Basics of AI/ML, Retrieval-Augmented Generation (RAG)
